

HEMP-SHIELDED ISO TRANSPORTABLE CONTAINERS

In the wake of an EMP, HEMP, or large-scale GMD event, portable electronics, power tools, communication equipment, and life-saving medical devices will cease to operate. Protecting these critical items is essential to minimize impact, post-event. Gaven's Hemp-Shielded Transportable Containers are tested to meet both military and ISO standards – mitigating threat/risk concerns and ensuring the resiliency and endurance of microgrids and small-unit/community operations.

KEY FEATURES:

- Meets MIL-STD 188-125-1/2 standards
- Meets ISO 668:2013 standards for transportability including ISO lift and skid points
- Integrated power options
- Weatherproof shipping doors & vestibule design
- Installed Unistrut for aftermarket fittings

FINISHING:

- Durable finishing interior
- Pre-mounted finishings upon request

STANDARD SIZING:

- Available in 10ft, 20ft, and 40ft configurations
 - 8' w x 8'6" h x 10' d
 - 8' w x 8'6" h x 20' d
 - 8' w x 8'6" h x 40' d

INGRESS/EGRESS:

- Weatherproof double swing doors
- HEMP-shielded inner door 4ft x 7ft clear opening
 - Pressure seal standard
 - Optional pneumatic air-seal door
