

FAILSAFE MRI AIR SEAL DOOR

Gaven's Failsafe MRI Air Seal Door offers best-in-class performance and quality with a variety of both standard options and custom capabilities. The Failsafe MRI series doors provide greater than 100 dB of attenuation over frequencies up to 1 GHz. The Failsafe MRI Air Seal Door is available in both single-leaf and double-leaf RF-shielded door options. Each door features a rugged, pneumatically operated and patented shielded air seal system that offers an easy-to-operate and consistent seal with every door cycle.

KEY FEATURES:
