MRI & RESEARCH FACILITY SHIELDING

Diagnostic and imaging equipment in healthcare is highly susceptible to both Radio Frequency and Electromagnetic interference. Shielding in facilities such as MRI rooms, radiological centers, surgical suites, and other vulnerable environments takes experience and expertise. Gaven has both of these. Gaven offers a wide range of products and services that are critical to the success of healthcare providers including doors, room shielding, design and installation services, and testing services.

OUR CAPABILITIES

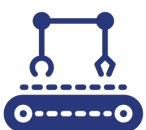

DESIGN

Gaven's design team assists in determining the appropriate shielding design requirements for your facility – including other considerations, such as electrical, HVAC, plumbing, and other points of entry.

INSTALLATION

Whether it's a new build, existing facility, or existing shielding restoration, Gaven provides highly experienced project managers, supervisors, and tradesmen for your project installation.

MANUFACTURE

Gaven manufactures both standard and customized RF-shielded enclosures, doors, windows, and various components for MRI and other healthcare systems.

TEST & MAINTENANCE SERVICES

Our team ensures the safety and performance of your facilities and critical equipment through our comprehensive testing and maintenance services.

OUR PRODUCTS

ROOMS

Comprehensive RF and magnetic shielded rooms with specified shielding performance down to 0 Hz.

DOORS

Gaven offers the highest quality RF-shielded doors with standard door offerings as well as custom sizes and designs.

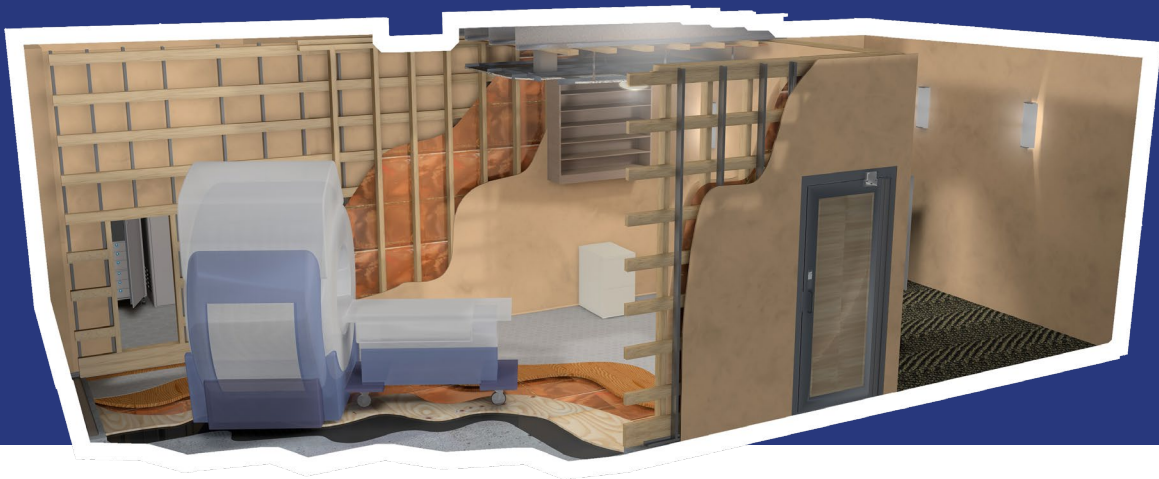

WINDOWS

RF-shielded windows with guaranteed performance available in almost any size and configuration.

COMPONENTS

Power filters, shielded camera and projectors, and points of entry such as HVAC wave guides or IV passthroughs.

OUR SERVICES

TESTING SERVICES

Gaven offers a full suite of RF and EMI testing services for room certification and recertification for shielding effectiveness.

MAINTENANCE & SERVICE CONTRACTS

Minimize facility downtime by allowing Gaven to perform your facilities' preventative maintenance and periodic services to maintain optimal performance and safety.

REPAIR & RESTORATION SERVICES

Shielding effectiveness degrades over time due to the constant normal use of a room or facility. Gaven offers full-service door and enclosure repair services.
